OUR CONSULS.

Mr. Ernest E. Williams makes some suggestions in "The Standard" for improving our consular system, from the point of view of the commercial world. He would have Consuls placed under the control of the Board of Trade as well as of the Foreign Office, and he would e mpel them to pass examinations before appointment. Consuls, he argues, should be mapped out into two divisions—those in which owing to the lack of commerce or the prepon-derating character of other matters demanding the Consul's attention (such, for example, as certain of the posts in the Near East), the Board of Trade would not need to interfere, and the candidate would not need to hold a commercial diploma; and those in which commerce is of importance. To the former class the Foreign Office could appoint, with or without power of veto in the Board of Trade ; to the other the Board of Trade could appoint, with simply power of veto in the Foreign Office. But the mention of mapping out the world's

British consulates calls to mind another reform which is needed. The consular posts themselves need to be rearranged and extended. Is it not, for example, ridiculous to have a Consul at Florence, where neither trade nor Oriental politics nor shipping demands such an officer, and at Milan, one of the chief centres of Italian industry, only a Vice Consul, who need not be an Englishman, and who, we believe, only gets something like £60 a year, out of which he buys his own stationery. Of course he can give but a small portion of his time to the important interests of British trade. which the Consul in that city might farther Why, again, should the Riviera possess numerous Consuls, while some important manufacturing towns in the interior of France possess none? Most flagrant discrepancy of a l, why should Austria-Hungary, a great and important commercial country, have but seven British Consuls, while little Greece has fourteen? Even in Germany the same thing is seen. The Empire contains but twenty-eight British consular officers; and Spain has fortyeight. All this must be changed. Of course, the Foreign Office must be allowed to retain its consular representatives in places where here are real diplomatic reasons for a British representative, even though there be no trade, but there are many posts in which there is neither trade nor diplomacy to serve. By striking these off the list the number of commercial Consuls can be increased without increasing the total service.

cause can be shown for representation in more places that the present number of Consuls would serve; and there is one important direction in which a considerable increase in he total number of commercial consular offiers is necessary. We refer to the Colonies. With our Colonies we already do a third of our total foreign trade, and we expect to do with them a large proportion in the future; yet throughout the Daughter States of the Empire there is not a single Government official analogous to a Consul. It seems absurd; yet, of course, one has only to think what a Consul is -the representative of Great Britain in a foreign country- to see how it has come about that we have no Consuls in the Colonies. Consuls so called, and fulfilling some of the functions of Consuls, we must continue to do without; but that is no reason why we should not have commercial Consuls, and there is every reason why we hould have plentiful supply of them. One obvious reason is that foreign Powers have their Consuls in our Colonies busy furthering the trade of their respective nationalities, and as for practical purposes of business Australia and Canada are to us as much foreign markets as Japan or the United States, our trade suffers so long as the manufacturers of the Mother-country are not represented by Government officials in the Daughter States.

Even, however, a total increase in the con-

sular service must not be boggled at if good

It is also suggested - and we are quoting now from proposa's made by consular officers themselves, who have given study to the questionthat an inspec'or of Consula should be appointed to visit the Consuls periodically and emove inefficient officers from their posts. This proposal is, we believe, to be embodied in the American reform.

We must find room in conclusion for one mere reform. Consular officers should in all cases be in every sense Englishmen. Without casting any reflection upon the gentlemen serving as British Consuls who are natives of the country to which they are appointed, it is obvious that their national ties must create some bias in favour of their own country-sufficient to mitigate their devotion to British trade; and it is noteworthy that one of the objects sought in the present reconstruction of the American consular service is the supersession of foreigners by Americans, to be obtained through such increase in remuneration as will permit Americans to fill the post. It would pay us to follow America's example.

Drowning Accident.

A native youth was drowned while swimming yesterday in the Mahmoudieh Canal.

His body has not yet been recovered.

The imports of coal from January 1 to 10th inst. amounted to 460,251 tons, as compared to 293,292 during the same period last year.

There is no foundation whatever in the report published by a Cairo contemporary that the Comptoir d'Escompte de Paris had offered to purchase half of the land belonging to Messrs. Walker & Meimarachi, Ltd, in the Ismailia quarter of Cairo, at the rate of L.E. 30 a metre.

Mena House.

Mr. Emil Weckel and family are leaving Egypt to-day by the S.S. Semiramis for Venice and Lucerne. Mena House Hotel passes over to-day to the George Nungovich Egyptian Hotel Company. The management of the hotel has been intrusted to Mr. Adolph Klingler, of the Continental Hotel, who has already taken up his post.

Opening of Markets.

A provincial correspondent writes : - It is rumoured that the markets will open soon for the sale of horned cattle. This would be a great boon to the fellah, as he has finished ploughing cotton, but cannot at present sell his animals, as he does every year. The opening of the markets would be a means of helping the sanitary authorities to seize any plague stricken animals.

Alexandria Antiquities.

As from the 15th inst., the price of admission to the Greco-Roman Museum and to view Pompey's Pillar will be P.T. 1 and to Kom el Shougafa P.T. 3. The number of visitors to the Museum during the first four months of the year amounted to 2,130, as against 1,439 in the same period last year. 1,576 persons visited Pompey's Pillar, as against 1,299 last year, and 2,932 went over the Kom el Shougafa excavations, as against 2.342 last year. The total receipts from all sources from January 1 to the end of April amounted te L.E. 178,990, compared with L.B. 224,090 during the same period last year, showing an increase of L.E. 45.

An Echo of Khartoum.

The order for 300 of the 2nd Battalion Royal Sussex Regiment to proceed from Crete to Egypt recalls the interesting fact that a detachment of the 1st Battalion got nearer to Khartoum when Gordon was besieged in it than any other regiment. The detachment consisted of 20 non-commissioned officers and men, under the command of Captain Lionel F. Trafford. It proceeded in one of Sir Charles Wilson's steamers from Metemmeh to within a short distance of Khartoum, but unfortunately the town had then fallen, and the gallant Gordon with it. Owing to the fact that the Royal Sussex Regiment was clothed in khaki this detachment borrowed scarlet jackets from the Guards in order that it might appear at Khartoum in the traditional uniform of the

British army.

The Weather The following remarks on the week's weather at Alexandria are taken from Messrs, R. J. Moss and Company's weekly circular .- Weather perfect with the expension of a surley, overeast and a "twelve-hour-sun-obscured" Sunday, the 6th; when, with a S. W. Wind, rain fell from 10 a. m. to 5 p. m., "off and on straight and solid," measuring 0.12 in., producing a raw chilliness and reducing the temperature to 54.0 Fahr.-This exception proves the rule that nothing under the sun is new; our records show May-rainfalls A. ULTIMATUM ENDS TO-MORROW

FLEET TAKES ACTION IMMEDIATELY.

(Gazette's Special Service.) London, Saturday.

The people of Great Britain are unanimously acking the Government. Mukhtar Pacha is considered to have notoriously been the head centre of an anti-British intrigue. No extension of time is to be granted. A mighty naval force is collected in Greek waters as an admirable effective instrument for bringing the Sultan to his senses.

LONDON, May 11. Admiral Lambton, with the Thetis, Perseus, and Minerva, is at Port Said awaiting orders. The ultimatum expires at midnight on Sunday. The fleet takes action immediately afterwards The "Gazette" announces that Brigadier General Bullock has been granted the temporary

rank of Major-General.

LONDON. May 11.

CONSTANTINOPLE, May 11. Yesterday, Tewfik Pacha visited Sir Nicholas O'Conor, who rejected certain preposals, insisting on absolute compliance with the demands made by the British Government. He reminded the Pacha that the term of grace was drawing to a conclusion. (Reuter)

Negotiations are still continuing, but there s nothing definite to announce.

We may assure our readers that the author ties are quite capable of satisfactorily dealing with any disturbance in the unlikely event of its arising.

The news of the arrival of the greater part of the Mediterranean fleet at the Piræus and the measures taken in concert by the British and Egyptian military authorities have had a very Society on Tunisia. tranquillising effect. The tone of the Pan-Islamic journals is much more subdued. and we have had no more wishes for the triumphant entry of the Turks into Cairo committed to print. We imagine that, while a certain proportion of the Moslems of Egypt are traditionally hostile to the Christian, a genuiney pro-Turkish sentiment is rare. It is not the Sultan of Turkey with whom the Egyptian Nationalist of the Right or Left sympathises, but the Imam el Mu'min'in.

SIGNIFICANT MEASURE.

There will be a route march of the troops forming the Alexandria garrison of the Army of Occupation on Monday morning next. The roops will march through the principal streets of the city.

NATIVE ATTITUDE.

It is noticeable that, although it cannot be said that there are any signs of agitation in Cairo, at the same time there has undoubtedly been a certain recrudes cence of unrest among the lower orders during the last two or three

THE MOSQUES.

The sermons in the Mosques yesterday were free from any inflammatory references. During the last few months, however, the average attendance at the Cairo Mosques has increased by about fully fifty per cent and this is considered to be highly symptomatic.

NATIVE PRESS OF OPINION.

"El Omma," a Cairo vernacular paper, published an alleged telegram from Alexandria on Thursday announcing that a division of the Turkish Army had disembarked at Alexandria and had gone towards the Ghazi's Palace, where it had encamped.

"El Omma" then makes the following reflections on this telegram :-

"The threats and pretentions of her enemies has forced the Porte to send some troops to

Alexandria. The Egyptians are receiving the soldiers of His Majesty with a manifest delight. and are keen in their hopes that victory will crown the arms of the Padishah." "El Tark," the organ of Ghazi Mukhtar

FRENCH MISSIONS TO THE SUDAN.

Messrs. Bonnel de Mézières and Raymond Colrat, who have been exploring the Sudan on behalf of the French Ministry of the Colonies and the Paris Geographical Society, are now in Cairo, when M.Colrat had an hour's conference with Lord Cromer.

M. de Mézières journeyed through the Egyptian Soudan, crossed the region of the Blue and White Nile, and thoroughly investigated Kordofan. His report on those regions is of great interest in regard to their administration, economic value, and their political relations with the French Colonies, especially the Wady Oasis. There is in this report a study of the several Mohammedan questions that are so interesting just at the present critical hour.

M. Colrat, who is a Councillor of the French Board of Foreign Trade and is a Chevalier of the Legion of Honour, will be remembered by all interested in France's African Colonies for a lecture he once delivered at the Geographical

Ibn Rachid was by turns the ally, enemy, and vassal of the Ottoman Government. We are not informed of his precise position at the time of his death.

EGYPT'S MINERAL WEALTH.

Mr. Wells, Inspector General of Mines, concludes his report on the mining industry of Egypt with an optimistic forecast. He says :-Finally, I may perhaps repeat an opinion which I have already expressed, viz., that the extent and distribution of the various mineral belts in Egypt are such as to warrant the expenditure of capital in their development; that the economic conditions existing are good, but that it will take at least ten years of active prospecting and development to prove the commercial possibilities of the many mineral belt. Outside of the heavy minerals and gold, there are, in my opinion very considerable possibilities in the deposits of phosphates and nitrates, chiefly for internal consumption, and also in the various building stones available in the Eastern Desert. The latter occur in great variety, and are many of them of exceptional beauty. I hope that in the near future it may be possible to arrange for an exhaustive inquiry into the above."

AGRICULTURAL BANK OF CYPRUS

The Agricultural Bank of Cyprus has been started, and an office has been opened at Famaguata, where the old Venetian harbour has been reopened by the British Government and a railway made thence to Nicosia. (Router)

The newly appointed A.A.G. in Egypt will be gain to the Army of Occupation, for during his command of the 1st Battalion Scots Guards he was recognised as a first-rate commanding officer. When Mr. Haldane, Secretary of State for War, paid an official visit to Aldershot the other day, he was taken to see this battalion by the General commanding there as

an example of a battalion of Guards in the highest state of efficiency, and he expressed himself in the warmest terms of praise concerning it. Colonel Gerald James Cuthbert, who was

only relieved of the command of his battalion on the 22nd inst., had a family connection with that regiment. Colonel Cuthbert was born in 1861, the fifth son of William Cuthbert of Beaufront Castle, Northumberland, and his nephew, who is the present representative of the family, served in the Scots Guards as a lieutenant. His period of service extends to nearly a quarter of a century, and his war record includes the Sudan Expedition of 1885, when with the 2nd Battalion of his regiment he was present at Hasheen and Temai, and the South African campaign. He shared in the advance on Kimberley, including the engagements at Modder River and Magersfontein, and he also took part in many other actions. For his services

Swan and Hunter by Wallsend on Tyne, the vessel receiving the name of Osmanieh on leaving

the ways. The Osmanieh is a fine vessel of about 5,000 tons register, fitted with twin-screw quadruple engines of great power, estimated to give a sea speed of 18 knots an hour. Her accommodation, which is all above the main deck, is for 150 first-class and 80 second-class passengers. It will be of the most up-to-date and luxurious character with many suites de luxe, and a large number of spacious two-berth cabins on

the upper decks. The vessel is expected to arrive at Alexandria in August, when it is the intention of the company to put her into their Greece-Turkey line under a special express itinerary by which the passage to Athens will be reduced to 30 hours, and to Constantinople to 48 hours, thus bringing Alexandris, by the shortest and calmest sea route, within five days of Paris and London by the Orient Express train de luxe service from Constantinople.

A handsome model of the new vessel will be on show during the summer at the Milan International Exhibition.

During the last few years Lord Cromer states

DISTRIBUTION OF LAND.

that the distribution of land as between Buropeans and natives does not appear to have undergone any material change. In 1900, 6,347 Europeans held 586,149 acres of land. In 1904, 6,165 Europeans held 630,925 acres. Thus it would appear that the number of Boropean proprietors has diminished, whilst the acreage which they hold has somewhat increased. In 1900, 908,067 native proprietors held 4,527,903 acres of land. In 1904, 1,083,877 native proprietors held 4 635,659 acres. It would appear, therefore, that both the number of native proprietors and the aggregate amount of land held by them have

In accordance with Article No. 143 of your Articles of Association, the directors have the honour to submit the annexed first statement of accounts covering a period of 9 1/2 months, namely from 15th June 1905 to 31st March 1906. At the formation of the company you possessed 15 ginning factories, of which the accompanying statement will give you the details, but of these 15 factories your Less Insurances and General board have considered it advisable to close two, in order to work only such factories as were most necessary for the economical working of the company. The past crop of Egyptian cotton, which we in common with all other people interested in cotton, even up to the end of last September, had hoped to see a big one, has unfortunately turned out one that will not reach 6,000,000 cantars. However, notwithstanding the short crop, we have every reason to be satisfied with the work that has fallen to the company. In fact the factories have ginned during the season cantars 1,773,247, 73/100, and we have pressed in our steam presses cantars 738,109,21/100. The Board have to state that owing to the insufficient capacity of The directors recommend that the factory at Mansourah, the company lost

The Government has chartered a Leyland liner to convey the 6th Inniskilling Dragoons, Il Battery Royal Horse Artillery, and some details to E.ypt The date of leaving for Alexa dria has not yet been announced, but most likely it will be about the 15 h inst.

The Inniskillings will embark about 600 strong. Every trained man, with not less than nine months' service to complete, will accompany the regiment.

It is stated that the U. Battery will take out six of the new 15 pounder quickfiring guns, if they can be turned out in time. This is the heaviest and in comparably, the best horse artillery gun in the world.

The 1st Battalion Lancashire Fusiliers, which has just joined the forces in Egypt, was last in the Land of the Pharoahs in 1801. Then the 20th Regiment, it was with the force which Abereromby landed in Aboukir Bay on the 21st March of that year. It shared in the siege and capture of A'exandria. The Sphinx, with the word "Egypt," commemorates the gallantiv of the regiment in the campaign, which resulted in the expulsion of Napoleon's army. Its 2nd Battalion, it may be recalled, participated in Kitchener's avenging march to Khartonm. and the battle which crushed Mahdiism in the Sudan.

The 2nd Battalion Dorsetshire Regiment, now stationed at Colchester under the command of Brevet-Colonel H. R. Lynch, will leave England in October next to relieve its 1st Battalion at Ferozepore, Punjab. The famous old "Green Linnets" were last in India from 1871 to 1885, with a year at Aden in the home-coming. Brevet-Colonel J. H. Poett. C.B., 1st Battalion, will vacate the command in Angust next, when he will be succeeded by M. jor K. E. Harris, the second in command of the battalion. The latter officer was a captain of the 1st Battalion when it was stationed in Cairo in 1890.

In an artic'e in the "Preussische Jahrbucher" Professor Hans Delbrück says that the United States are strong materially, intellectually, and politically, but that England is stronger in military power. Before the United States could be adequately armed England could have dealt the severest blows, much severer than against Germany, for "England can despatch two hundred thousand men from Canada before the United States have even assembled their Field

Most of the European Powers, continues Profesor De brück, are possessed of a certain anxiety respecting the foo great power of the German Empire. The United States, however, have no reason to share this arxity, and can only be glad that sirce France and Russia have withdrawn to the second line Germany is in a position to counterbalance England. This new relationship was made clear by the Algeeiras Conference, with the result of which Germany has every reason to be satisfied.

Commenting on this statement, the "Post" says that 'England's land force is considerably over estimated. England might east'y destroy the American Fleet, but on land she would probably fare worse than she did 130 years ago, and with the loss of Canada would be driven out of the American Continent. While the mighty Republic has nearly eleven million. of men capable of bearing arms, England lacks the valuable soldiers which German States then sold her, and, moreover, the reputation of British generals has faded since the Boer War. Persons who have zealously counselled military reforms and who perceive the weakness of England's land Army, and its inadequacy to engage in a war with a real great power, have hitherto had practically no success. The United States need be as little concerned about the two hundred thousand men from Canada as we are about the much-discussed one hundred thousand which were allegedly to land in Schleswig-Holstein. It would be a mistake, however, to under estimate too much the British land forces. Her old bravery still reposes in Tommy Atkins, as was manifested in the Boer War, and the English people have also shown that they are not lacking in the spirit of sacrifice and devotion to their Mother Country.

The mishap to the Donegal, whilst outwarp Mr. F. GENERAL BANKERS. BASILDON HOUSE, BANK, LONDON, E.C.

LES TRAMWAYS D'ALEXANDRIE.

Les actionnaires ont tenu leur assemblée annuelle, avant-hier.

Les bénéfices de l'exploitation se sont élevés fr. 767,657.08; les coupons des actions Ramleh à fr. 355.758.12; le solde de la créance dans le passif de la faillite S. Philippart à fr. 32.698.12; ensemble fr. 1.156.113.32.

Défalquant les charges financières et le montant passé au crédit du compte Fonds de re-666,772 fr. 74. Après déduction des droits de patente et de 5 0/0 à la réserve statutaire, le bénéfice net distribuable s'élève encore à francs 609,997.05. Il permet d'attribuer aux actions privilégiées un dividende de fr. 6.25 par titre et aux actions de dividende fr. 2.75 par titre. Le coupon est payable à partir du 1er juin

A la demande d'un actionnaire le président fournit quelques explications, comme complé-

ment au rapport du Conseil. La Société devra pourvoir à la reconstruction d'un établissement de bains et d'un Casino qui ont été compris dans une emprise faite obtenu de cette expropriation lui a donné toute satisfaction; mais les nouvelles constructions devront mieux répondre que les anciennes aux exigences du public et le Conseil étudie les moyens les plus économiques pour se procurer les fonds nécessaires à l'exécution de ces divers travaux.

Quant au projet d'unification des deux catégories de titres par un capital unique d'actions ordinaires, le Conseil ne peut, en ce moment, que sigualer aux actionnaires le projet d'unification que le groupe égyptien voudrait réaliser. Ce n'est que lorsqu'une solution pourra intervenir que le Conseil donnera à une assemblée extraordinaire, qui sera saisie de l'affaire, tous les renseignements désirables et nécessaires.

Cette question doit être examinée à deux points de vue : financier et légal. Ils font l'objet des études du Conseil et sont à l'examen des jurisconsultes de la société.

Le Conseil propose de porter à 9 le nombre des administrateurs, nombre, d'ailleurs, préva par les statuts.

Le Conseil d'administration se réunit au Caire et ses délibérations sont transmises à l'administrateur délégué, M. Fl. Lambert (le président de la présente assemblée) qui en fait part aux actionnaires belges. On ne peut oublier que les actions de la société sont pour 98 0/0 en mains des Egyptiens.

La proposition du Conseil ne vise d'antre butqu'une bonne administration de la société, en conformité de la loi belge. Le président émet le vœu de voir un jour les actions des tramways d'Alexandrie revenir aux Belges.

L'assemblée renouvelle, à l'unanimité des suffrages, les mandats de M. I. Lumbroso et de M. Poilay Bey. administrateurs sortants et rééligibles et confère le mandat d'administrateurs nouveaux à MM. le baron Jacques de Menasce, le baron de Kusel, Periclès G'ymenopoulo, Georges Zervadachi et L. Karam fils Il est procédé au tirage au sort de 133

obligations et la séance estlevée.

NOTES ET CRITIQUES

Le Caire, Vendredi 11 Mai. Le taux de l'escompte privé à Londres vient d'être réduit de 1/8 à 3 7/8 pour cent.

Au Stock Exchange, hier, le Consolidé s baissé de 1/4 à 89 3/3. L'Unifiée a, par contre, haussé de 1/4 à 104 1/4. La National Bank a clôturé en baisse de 1/8 à 26 1/8 et l'Agricole de 1/4 à 9 7/8. La Daïra est restée invariée à 17 3/8. La Delta Light a encore perdu 1/8 à 12. A Paris, l'action Crédit Foncier Egyptien a

réactionné de 2 france à 773. La Banque d'Athènes est demeurée inchangée à 150.

Ici, le marché a débuté inactif et lourd, avec tendance à la dépression, mais il s'est quelque peu ranimé vers la clôture.

La National Bank, qui avait fléchi à l'ou-verture jusqu'à 26, a clôture plus ferme à son prix d'hier, soit 26 1/8-3/16. L'Agricole a été traitée entre 9 25/32 et 9 13/16. Le Comptoir Financier a faibli à 6; l'action nouvelle à 5 7/8. La Banque d'Orient a encore perdu 1 franc

à 184 L'action Crédit Foncier est revenue à 778 et la part de fondateur à 1020. La Daïra a reculé

à 17 1/8-3/16. L'action Wardan Estate a été traitée, ex- cesseront de s'arrêter à la station de Mellaha right, à 6 1/8-3/16; la part de fondateur à à 5h. 34 a.m., 11h. 55 p.m. et 8h. 33 p.m. 8 3/8-1/2. L'Agricole du Nil a réactionné à respectivement.

La part de fondateur Immobilière a été échangée à 610; la part de fondateur Land Allotment à 155 et les jouissances Eaux du

Caire à 259. Dans le groupe des Hôtels, les Nungovich ont perdu leur avance d'hier et ont été ramenés à 17 1/2.

Parmi les petites va'eurs, les Delta Land ont baissé jusqu'à 3 31/32 pour clôturer à 4.

Les Hooker se sont maintenus à 1 1/16. On fait courir la rameur que la Société serait en nouvellement, il reste un solde créditeur de train de conclure une affaire avantageuse. Les New Egyptian ont faibli à 28 sh. 3 et les Egyptian Constructions à 1 1/4-5/16.

On sait que l'assemblée générale extraordinaire de la Société des Automobiles et Omnibus du Caire avait décidé, le 17 Avril dernier, de porter le capital social de L.E. 50,000 à 100,000 par la création de 12,500 actions ordinaires de L.E. 4 chacune.

Cette augmentation ayant pour objet la réalisation de la convention, passée avec la Compagnie des Omnibus du Caire, suivant laquelle cette dernière a accepté de fusionner avec la Société, les nouvelles actions entière par le gouvernement. Le prix que la société a ment libérées, plus 1,875 parts de fondateur. seront échangées, conformément aux accords respectifs, contre la totalité des actions de la Compagnie des Omnibus, qui s'élève à 3,850, soit 3 1/4 actions de la Société des Automobiles et Omnibus contre 1 action de la Compagnie des Omnibus, plus l'attribution proportionnelle sur les parts de fondateur. Toute fraction d'action sera remboursée en espèces et

L'échange et le paiement des fractions auront lieu à partir du 16 Mai courant.

L'assemblée générale ordinaire de la Nile Cold Storage Co. aura lieu, au Grand Continental Hotel au Caire, le 19 du courant, à 5 h. p.m Ordre du jour: rapport du conseil d'administration, présentation des comptes, nominations statutaires, etc.

Une assemblée extraordinaire des actionnaires sera tenue aussitôt après à l'effet de délibérer sur une proposition du conseil tendant à réduire le capital de la Société à £ 40,000 et à introduire à cet effet les modifications nécessaires dans les Statuts.

Carnet de l'actionnaire.

-Le Conseil d'administration de l'Express Nile Steamers Co. a décidé de faire l'appel du 2ème versement de L. E. 1 par ac ion. Les versements devront être effectués au plus tard le 20 Mai courant chez MM. H. de Vries et Boutigny.

-Les titres au porteur de la National Bank of Erypt (5ème émission) sont délivrés depuis hier contre les certificats d'actions.

-Les actionnaires de la Compagnie des Omnibus du Caire sont informés que le paiement du coupon No. 8, à raison de P. E. 100. aura lieu à partir du 16 du courant.

OTICE

Messrs. Haselden and Co., Egyptian Agents for the Royal Insurance Company of Liverpool, hereby beg to inform their clients that having regard to the widespread uneasiness which the San Francisco disaster has created in the minds of the public generally, the Directors of the Royal Insurance Company have made the

following official announcement:

"The Royal Insurance Company has
"Barnt by cablegram from its Mauager at
"San Francisco that the area of the recent
"disaster involves a possible liability of
"£1,350,000 (6,750,000 dols.) Having regard
"however to the large balance at the credit
"of Profit and Loyat the area of of Profit and Loss at the end of 1904, and "the profitable results of last year's opera-tions, the payments which will have to be made in connection with this liability will not necessitate any reduction in the Fire

"and Reserve Funds of the Company."
It is anticipated that when the Manager of the Company at San Francisco has been able to look closely into the position it will transpire that the Company's losses will be appreciably less than the figure mentioned. 27888-4-1 27888-4-1

REVUE COMMERCIALE

Après avoir débuté d'une façon qui a pu faire croire durant les deux premiers jours que le parti de la hausse allait de nouveau domine en plein, le marché a soudainement changé d'allure et la semaine que nous passons en revue a fini par ne laisser que déceptions à conx qui s'étaient laissé chauffer les idées. Il est vrai qu'on avait été un peu trop vite dans les marœuvres de samedi et de lundi dernier mais, au fond, ou ne pouvait pas prétendre qu'ily avait des motifs réels etsérieux pour provoquer le revirement rapide qui s'est produit. Il y a cependant un fait, non dépourvu d'importance, qui à la rigneur pourrait être considéré comme une justification suffisante de la faiblesse montrée par la spéculation, et ce fait consiste dans la situation financière de la place, cause d'un certain resserrement monétaire ou pour mieux dire d'un renchérissement du taux d'intérêt et qui à son tour a mis dans l'impossibilité ceux qui comptaient ou disaient vouloir recevoir le mai d'obtenir des Banques des conditions acceptables, pour les avances qu'ils se voyaient obligés de demander pour atteindre lear but.

Il est ir contestable que les circonstance n'ont guère favorisé les haussiers et que c'est de là qu'est ré le désir intense d'en finir avec le Mai, d'une manière ou de l'autre et ce qui a modifié toutes les intentions. En somme, la volte-face a été aussi complète qu'inattendue et la conséquence a été une baisse de près d'un tallari du point le plus élevé qu'on avait atteint, en passant, pour le Mai, et qui nous laisse dans un état d'indécision marqué.

Le bon côte de la baisse a été d'aider au classement du Mai, car avec l'élargissement du report qui a suivi tout naturellement, les vendeurs ont fini par renoncer à leur prétention d'un tallari et par accepter 7/8 pour le transfert des filières sur Juillet. De plus il paraît positif aussi que que que ques uns d'entre eux ont trouvé leur convenance à racheter un peu de leur Mai, ce qui a facilité les opérations de c'ux parmi les détenteurs qui ont tenu à liq ider.

Certes, il y a encore du Mai flottant, mais nul donte aussi que le peu qui reste encore à régler sera bientôt mis à disposition et qu'en définitive il aura le même sort que la plus grande partie de cette échéance. Tout compte fait, l'intérêt entier est désormais concentré sur le Juillet qui va devenir l'obj t des efforts de la spéculation encore er gagée sur la vieille récolte.

Avant d'envisager l'avenir, on de faire des pronostics, exposons maintenant les faits et gestes de la semaine.

L'onverture de samedi a été très chande et en pleine hausse, le premier cours de la matir ée ayant été de 21 25/32 pour le Mai ; seulement, l'offre n'ayant pas tardé à dépasser la demande, une réaction a commencé à se dessiner, ce qui nous a fait reculer à 21 9/16. Toutefois, en clôture, un nonveau monvement de hausse a en lieu et cette première jourgée s'est ter-

minée à 21 13/16. Ces bonnes dispositions se sont encire accentuées lundi matin et d'emb'ée le début a eu lieu à 22 ?/8, mais la poussée exagérée des prix ayant attiré les ordres de vente en masse de la part de ceux qui se considéraient heureux de profiter de ce niveau pour réaliser, un mouvement de recul nous a ramenés en quelques instants à 21 27/32. En général, les demi-tallari de baisse.

A. V. THOMSON. intéressés à la hausse semblaient convaincus que l'on avait suffisamment fléchi, mais leur désillusion le lendemain a été complète quand

a eu lieu l'ar nor ce d'one filière de 16000

cantars envirou, suivant de bien près l'impres-

sion plutôt froide lai sée par la c'ôture

d'Amérique. Ces 16000 cantars ne consti

tuaient pas un chiffre énorme, mais en fin de

compte c'était une nouvelle circonstance contrariante qui surgissait, et son effet a été de nous faire baisser de 11/32 de plus. Après un moment d'arrêt sur la cote de 211. la situation n'a fait qu'empirer et depuis lors nous avons continuellement et graduellement

faibli pour finir anjourd'hui la semaine à

1/8, après avoir momentanément atteint

En réalité, aujourd'hui, la tenue du marché a été tant soit pen meilleure et cela donne un pen d'espoir aux haussiers, mais comme nous l'avons dit plus haut, il y a de l'hésitation. En effet, et quoique la pression du mai n'exi-te plus, l'idée qui prévant est que le juillet, qui a pris sa place, est destiné à voir peu à peu sa prime disparaitre et que dans le niveau de 21 tallaris environ, il n'y a pas trop à espérer sur un secours efficace de la part de la consommation. Comme on a maintenant beaucoup de temps devant soi, il n'y a pas grand risque de voir une débandade se produire, quelles que soient les idées des vendeurs et à moins d'une eirconstance fortuite; mais de l'autre côté aussi, les efforts des détenteurs de la vieille récolte ne semblent pas destinés à avoir grand succès. En résumé, la finale pourra être mauvaise, comme le prétendent les vendeurs, mais d'ici là il y a des besoins à satisfaire en filature et, à des prix relativement raisonnables, la consommation pourra nous absorber la plus grande partie de nos disponibilités.

La nonvelle récolte a fait preuve de plus de résistance que l'ancienne, mais quand même elle a fini par subir l'ir fluence de l'état général du marché. Le Novembre, pourtant, à la dernière cote de 16 25/2 ne nous montre une nerte de 1/32 sur la clôture de ven dredi dernier. Au plus haut, il avait été à 17 1/8 pendant la matinée de lundi.

Sous le rapport des affaires il a aussi été plus satisfaisant et cela se comprerd si l'on envisage l'importance des intérêts engagés sur la rouvelle récolte.

Pour ce qui est de l'avenir, les opinions du public ne sont nullement d'accord. Les baissiere, cela va de soi, soutiennent qu'en lui-même le Novembre est trop cher et que si la récolte actuelle peut se maintenir à cause de sa situation statistique toute exceptionnelle, on ne saurait en dire autant pour le Novembre qui ne peut attirer la consommation dans les conditions cu il se trouva. A cela les achateurs ré pondeut que l'écart de 5 tallaris entre vieille récolte et nouvelle est une anomalie sans nom qu'un rapprochement est inévitable et qu'il ne pourrait avoir lieu qu'en favorisant le No vembre le champ de la bai se pour la récolt aetuelle, par la torce des choses, se trouvant limité et les premier besoins de la filature pour Septembre et Octobre ne pouvant qu'aider au soutien, étant donné que l'entrée dans la prochaine campagne se fera avec des ressources entièrement épuisées. Cela semble plus rationnel. En outre il ne faut pas onblier qu'une hausse sur les Américains pourra tonjours les aider dans leurs manœuvres éventuelles. Dans

tous les cas, ils sont encore persuadés que

Le marché du disponible a été d'un calme extraordinaire et les affaires traitées sont restées insignifiantes; du reste la demande existante est limitée à de tout petits besoins sans importance aucune.

Pour ce qui est des prix, ils n'ont varié que fort peu et comme conclusion la cote officielle de ce jour nous montre à peine une baisse de 1/8 sur les Mit Affifi et les provenances Haute-Egypte. Les Abassi et les Icannovich par contre restent sans changement. D'ailleurs ils sont rares et comparativement aux autres genres ils ne sont pas du tout chers.

Comme exportations, il n'y a pas lieu de se plaindre : elles ont atteint les prévisions qui étaient pour 10.000 balles environ, contre 16.000 pour l'année pe ssée. Certes, la différence est sensible, mais en faisant la comparaison, il ne faut pas oublier la différence qui existe entre les rescources respectives des deux années. En tous cas, elles ont fait un nouveau vide de 60.000 cantars dans le stock qui a, en lui-même, plus d'importance que celui de 10.000 cantars qui s'est produit l'année dernière à la même date.

Pour la semaine prochaine tout élément d'appréciation fait encore défaut, mais à en juger par les débuts, l'avantage sera en faveur de 1905 qui nous donne pour la semaine correspondante balles 13.000.

Liverpool a été plus favorable à nos cotons, les ventes journalières ayant dépassé la moyen-ne de 300 balles, mais comme prix nous n'avons à signaler aucun changement sur le disponible, tandis que les fluctuations des futurs se résument en une baisse de 3/64.

Du découvert à Liverpool sur les égyptiens on n'entend plus parler et il paratt avéré que la position a été transférée sur Juillet, après avoir subi une forte diminution. S'il reste encore que'que chose sur le mois, ce n'est en aucun cas suffisant pour prêter à un égorgement comme celoi qui aurait facilement pu être fait à un moment donné.

L'Américain disponible à Liverpool a été assez actif, et sous le rapport des prix c'est une hausse de 10 points sur le spot que nous avons à enregistrer et à peu près autant sur les futurs ancienne et nouvelle récoltes.

De l'Amérique nous avons eu cette semaine un avant-coureur des dépêches sensationnelles auxquelles on nous a habitués depuis quelques années : On a commencé par parler d'un killing frost, ensuite d'an frost, puis d'an cyclone et finalement d'un excès de pluie. Le fait est qu'il y a des intempéries qui retartardent la rlante, mais en nême temps il est acquis que le Sud profite de l'effet de ces nouvelles pour vendre sur la prochaine récolte surtout. La spéculation à la hausse cherche aussi à exciter l'étranger, probablement dans le but de lui passer une partie de son paquet.

De la part de la filature il y a ralentissement dans la demande.

Graines de Coton

Malgré le peu d'importance des arrivages, c'est la faiblesse qui a dominé sur notre marché et elle a été aidée tant par l'insignifiance de la demande que par l'état peu satisfaisant du marché des contrats. Le fait est que la semaine a fini à P.T. 71.

On est un peu trop impressionné ici par les petites exportations et c'est là la cause du découragement montré par la spéculation, d'autant plus que pour le reste de Mai on ne voit aucune perspective d'amélioration de ce chef. Comme cours final, Mai s'inscrit à 71 35/40.

Hull, sous l'influence de la faiblesse de marché, continue à être réservé tient à £6 17/6, d'autant plus que Bombay nous fait une concurrence acharnée, mais les besoins en graines égyptiennes étant indispensables, d'un jour à l'autre nous aurons certainement un réveil de la demande pour l'Angleterre, d'autant plus que le flottant invendu qui rèse un peu sar la situation doit hientôt disparatire.

Sur la nouvelle récolte on ne fait guère d'affaires, mais les cours se sont quand même ressentis de l'état général du marché. Les 3 mois finiscent & 63 1/2.

L'Europe est toujours indifférente à la nouvelle récolte; on pense cependant que les prix finiront bien par tenter la consommation.

CHRONIQUE FINANCIERE

Alexandrie, le 11 Mai.

Notre marc' é, en sympathie avec celui de Londres, est complètement démoralisé. La corbeille a été délaissée durant toute la semaine et il a suffi d'une attitude généralement vendeur pour casser les cours d'une faç in que rien ne

justifie, sinon la peur. Celle-ci, en effet, règne en mai resse. Aux demandes d'or causées par la catas rophe de San-Francisco est venu se joindre le conflit turo égyptien, devenu depuis anglo ture. Ce conflit, entré dans sa phase tragique, a terrorisé les esprits. On a pensé que c'en était fait de l'Egypte et des valeurs égyptiennes. Dans quelques jours, lor qu'on apprendra que la Turquie a cédé, on sera volte-face pour la hausse; à ce moment les petits détenteurs qui se seront dessaisis de leurs paquets s'apercevront que leurs titres sont devenus la propriété des barques et des capitalistes.

En attendant, la baisse est générale. Elle est énorme pour certains titres. A la veille du coupor, qui ne peut manquer d'être rémunérateur cause de ses recettes oroissantes, la Delta Light s'effondre à 11.7/8, ce qui représente depuis un mois environ plus d'une livre et demie de baisse au cours précisément de la période annuelle de hausse. Ajoutons que la Delta Light, une de nos meilleures valeurs de placement, s'écarte peu du prix d'émission qui est de 10 livres. La baisse de l'Agricole n'est pas aussi brutale; elle est aussi plus motivée. L'Agricole avait seule jusqu'ici résisté à la baisse; la perte d'un quart de livre qu'elle vient de subir n'a donc rien en soi d'exagéré Parmi les autres valeurs en baisse sensible, il faut signaler la National Bank, l'Anglo-American Nile, la Delta Land, la Nile Land, la Land Bank, la Deferred Delts, le Comptois Financier (2 livres en que ques semaines).
Tandis que le Stock Exchange est en pleine

déconfiture pour les valeurs égyptiennes cotées à Londres, la bourse de Par's enregistre au con traire une hausse plus ou moins sensible excepté en Dette Egyptienne Unifiée et en Land Bank of Egypt. Cela provient de ce que le marché de Paris ne traverse pas de cris comme le marché anglais ; l'argent y abonde et les capitalistes, loin de s'effraver de la baisse actuelle, en prefitent pour garnir leurs porte feuilles dans des conditions rémunératrices.

C'est un bon signe pour l'avenir. Bientôt le drainage de l'or occasionné par la catastrophe de San Francisco cessera d'influencer les mar chés européens; le conflit d'Akaba lui même entrera incessamment dans sa phase résolu tive, puisque le délai de l'ultimatum de la Grande Bretsgne à la Turquie expire après demain. Les marchés n'ayant plus à craindre pour le moment de complications politiques reprendront leur tenue normale et la cote re montera sensiblement à ses cours antérieurs du moins pour les valeurs sérieuses q'i n'ont pas été surfaites.

On nous rendra cette justice d'avoir sans relache signa'é le péril qui résultait de la hausse, aussi monstrueuse qu'injustifiée de certaines valeurs. C'est ce qui explique dans une certaine mesure la perte énorme qu'elles viennent de subir, entrainant dans leur débâcle toute la cote. D'autres titres, au contraire, dort la plus-value est calculée sur des bases irréfutables, sont injus tement dépréciés. C'est ainsi que l'Union Foncière dont nous avons établi la situation sur des chiffres et dont la plus value des terrains à l'heure actuelle représente du 40% est comparativement une livre au-dessou d'antres titres dont la hausse n'a aucune base

La statistique montre que le capital actions et de réserve des banques de dé; ôt exclusivement égyptiennes s'est aceru de £2 939.000 en 1901 à £6.300.000 en 1905. Si l'on pouvait évaluer le chiffre d'affaires traitées par les banques étrangè es, on constaterait sans doute un progrès analogue ; il en est de même des lanques privées, dent le nombre est considérable. Le passif total des banques de dépôts exclusivement égyptiennes a angmenté de £7.456.000 en 1901 à £19.604.000 en 1905 durant la même période, l'actif a passé de £10 595.000 à £26.4°4.000.

Le Board de Londres de la Delta Land s refusé de sanctionner la fusion de cette société avec la Land and General Trust de Hooker, cela probablement à cause de la forte hausse qui s'est produite sur la Delta Land après cette fusion. Un ne sait pas encore de facor certaine si cette rupture est définitive ou si e conseil local arrivera à modifier la résolution du Board de Londres. Entre temps la Delta Land a baissé à 3 7/8 et la Hooker à 1 1/32. Pour la semaine finissant le 28 avril, les

recettes de la Delta Light Railways ont été de L.E. 2928 contre L.E. 2591 en 1905, soit une angmentation de L.E. 337 au profit de l'exer cice en cours. Il ne faut donc pas ajouter foi i certains bruits répandus par des organes fi-nanciers intéresés à la baisse et d'après lesquels les recettes de la Delta Light iraient en diminuant. Elles sont au contraire excep'ionnellement florissantes.

Malgré l'annonce de la formation définitive d'une banque Agrico'e à Chypre, la Land Allotment n'en tombe pas moins à une demilivre environ au-dessous du pair. On al'ègue pour motifs que les opérations financières analogues n'ont pas jusqu'ici donné à Chypre de résultat satisfaisant. A partir du 15 courant les dividendes de la

AN UNHEALTHY LIVER OR STOMACH STARVES YOU.

DOAN'S DINNER PILLS CURE EVERY LIVER, STOMACH AND

The greatest danger the General on the battlefield has to face is, the cutting off of food supplies : it means the starvation of his troops, and ultimate disaster. In just the same way, your greatest danger is the failure of the liver and stomach to change your food into nourishment for the blood, bones and tissue.

This is why liver and stomach trouble is so serious; it means that no matter how much you eat, you are being slowly starved; every nerve and organ is being robbed of its proper sourishment; the blood is poor and lacking in redness, the lips and cheeks become pale, the eyes yellow, the expression haggard. You grow thin and weak, feel heavy and listless. These symptoms are the digestive organs' cry for help, and Doan's dinner pills should be regularly antil every sign of the trouble has gone, otherwise you will be in danger of anæmia, constipation, chronic indigestion, bi iousness, dypepsia, and congestion of the liver. Doan's dinner pills are made from pure roots and herbs that help the liver, stomach and howels, restoring a natural action and a healthy digestion of food. This medicine ought to be in every home, and a dose taken at once

by anyone who is unwell. Doan's Kidney Pills are for sale by all chemists and druggists at 6 P.T. per box, or 30 P.T. for 6 boxes; or they may be had direct from the general agent for Egypt, — Max Fischer, Mousky Street, Cairo,
